

The Dice Game

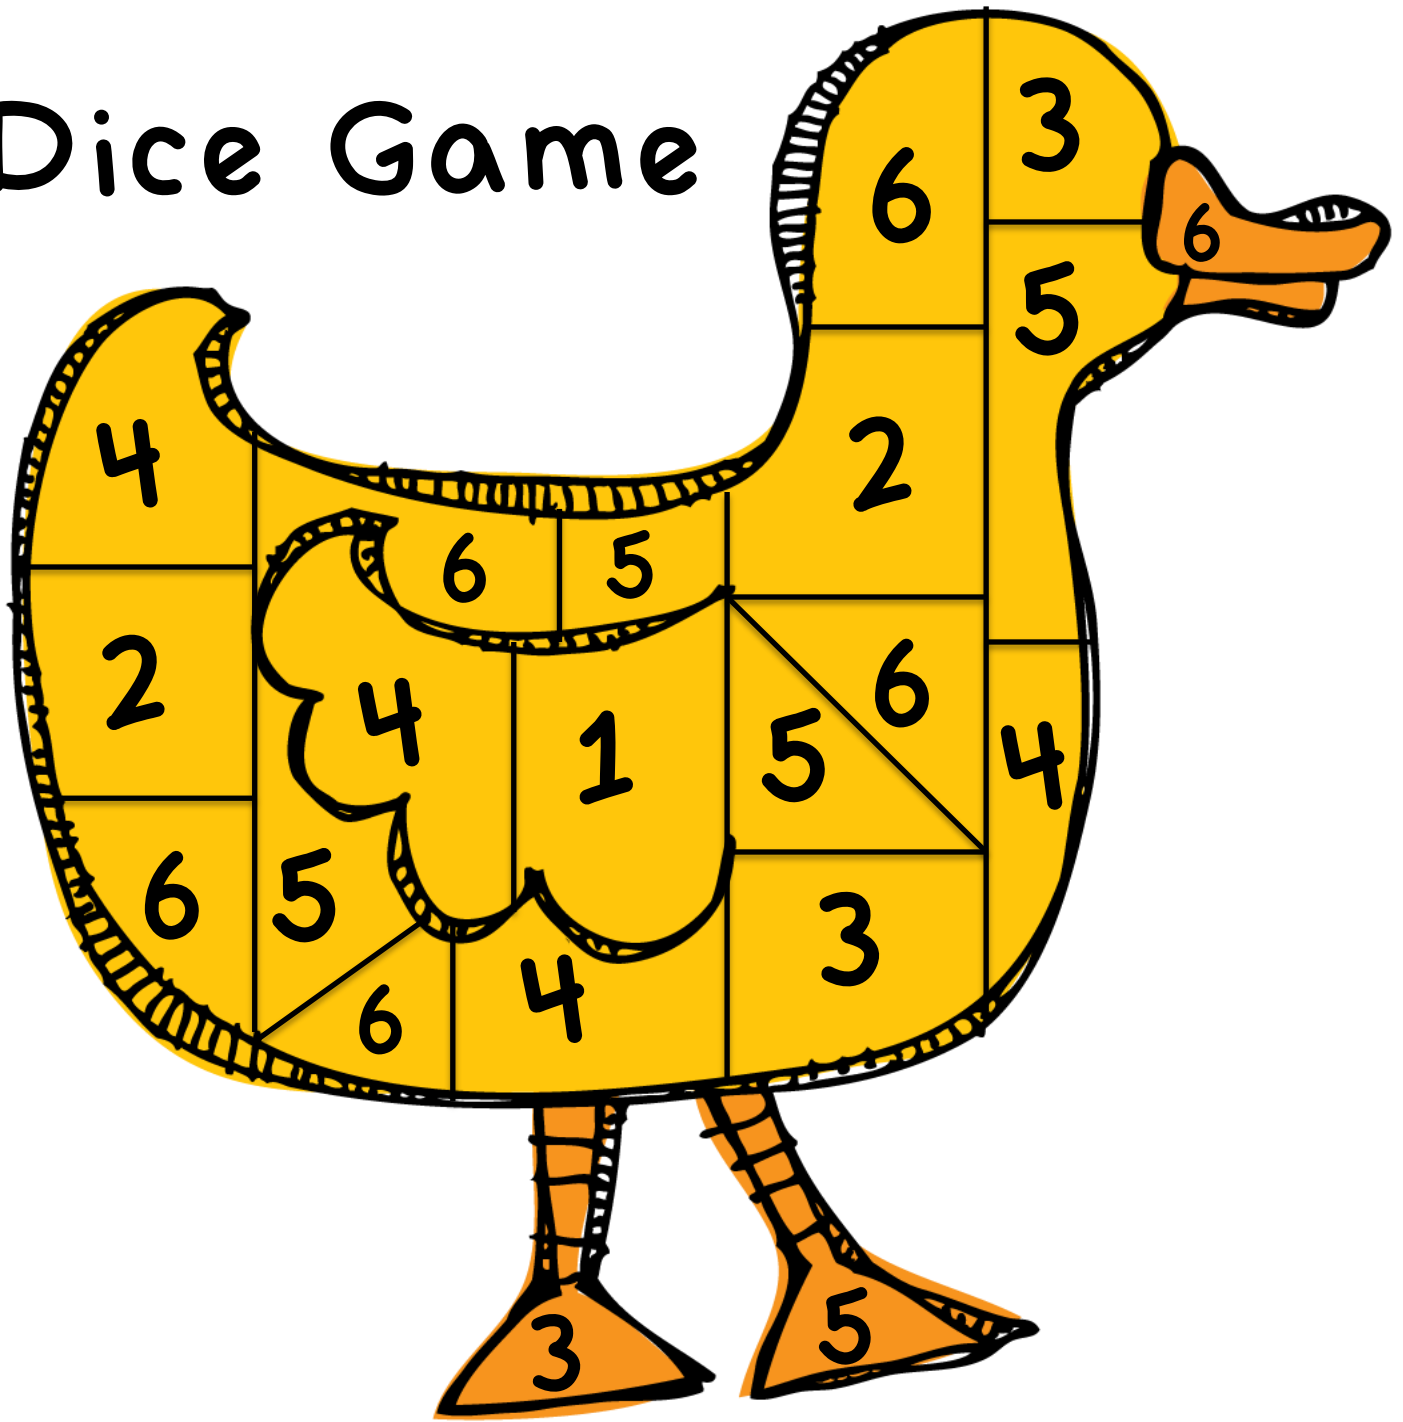

The dice game is meant for 2 players. Each player chooses a different color crayon, and the players share one paper.

Player 1 rolls the die, then colors in the appropriate number. Player 2 then takes her turn. They go back and forth until all numbers have been colored in. The player with the most numbers colored is the winner of the game (and can take the paper home).

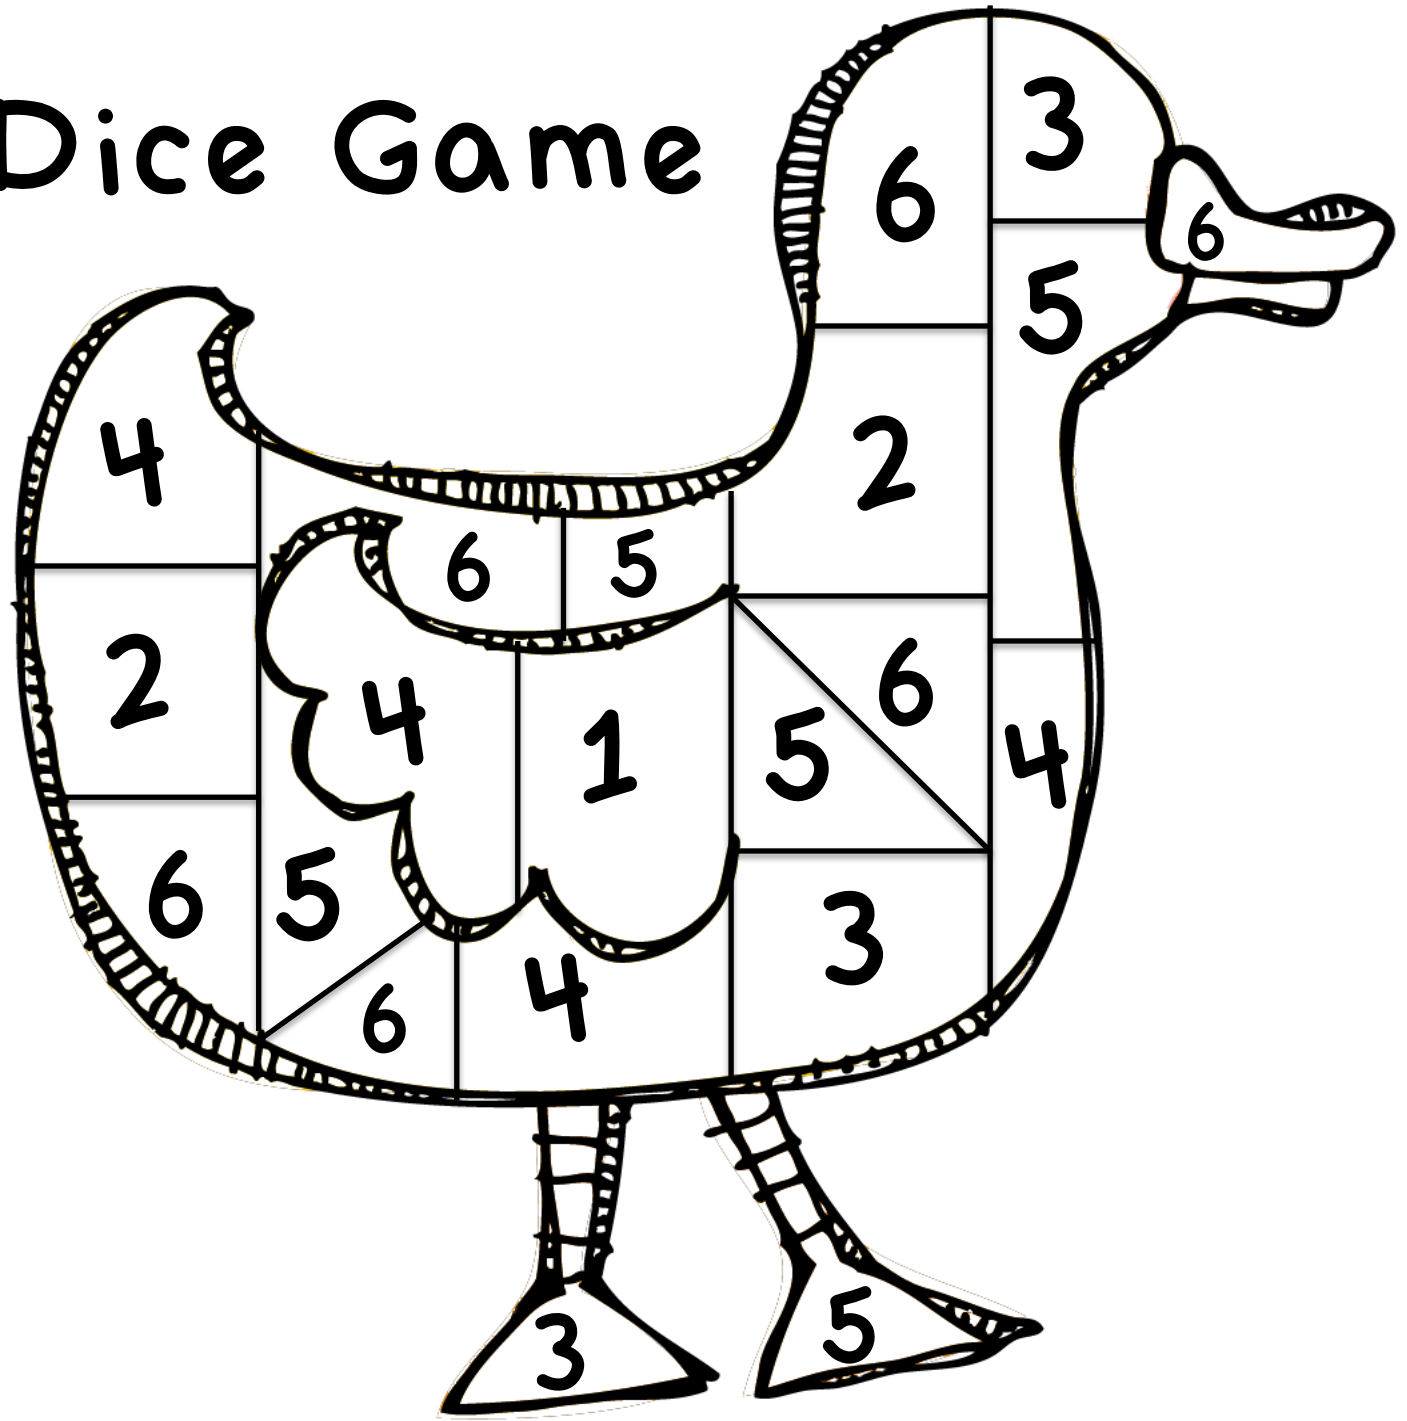

Put the Mud on the Pig

This math game can be played individually or in a group. Children begin with a laminated pig play mat, brown or black unifix cubes (or some other counters), and 1 or 2 dice. Children roll the dice and add the appropriate number of unifix cubes. This game is discussed in the following post -- <http://fun-a-day.com/spring-on-the-farm-week-in-review/>.
